

Reddish Vale Nursery School

March 2016

Dear Parents/Carers,

This sheet has some spring time activities for you to do at home with your child. It gives you some ideas of what to look for while you are out and about and there is space for you to record any other signs of spring that you find. It would be great if you would share the sheet with us at nursery, along with any photographs you took or objects that you found.

Here are some other suggestions of what you could look for on your walks:

Frogspawn

(Taking great care around any water)

Bluebell Flowers

Catkins

Here are other ideas for suggestions for some indoor and outdoor activities you can do at home:

A blow painting Blossom tree

Letting the children help you in the garden to learn about springtime planting and new growth.

Making shapes and models out of twigs and sticks.

Den building.
