

Hello lovely children,

I hope you are all well and enjoying time with your families. I have been spending time with my girls Lauren and Millie we have been posting ideas on our avenue's WhatsApp group for children to try. Have you had a go at anything on the school website yet?

<http://www.reddishvalenursery.stockport.sch.uk/>

I have spent lots of time in my garden looking for bugs and mini beasts just like nature school, why don't you try it? Look around for signs of Spring, I have lots of buds on my trees and also daffodils.

Today I saw 3 huge bees looking for pollen from a flower and a big caterpillar, I wonder what he will turn into?

I have started to build my own bug hotel I have used straw, slate, stone and brick so far! I wonder if you could build one? What kinds of mini beasts do you think you would find in your bug hotel?

My 2 cats have been trying to help as well they are called Earl and Daffy but they just keep digging in the soil!

Remember to put your hat and sun cream on if you go out in the sunshine!

Happy hunting! Keep safe,

Berni
