

To all my friends at nursery,

This week I have been very busy at home. I have read lots of books and watched some of my favourite films and TV shows. I have been doing lots of exercise and the Joe Wicks workouts have you?

I have been for walks in the park near my house and seen lots of amazing birds and insects! I have been growing some plants on my balcony and making sure I water these every day because we have had some very warm, sunny days.

I have been checking the school website for ideas and have been making things at home using old empty boxes and bottles and would love to see anything you have been making at home!

I am missing you all lots and can't wait to see you all soon!

Claire
